LANGUAGES

English   **Level B2**
Certified by the "*Languages Center*" of the University of Vigo

Spanish   **Native language**
ACHIEVEMENTS

During my Erasmus+ scholarship, I have started with colleagues from other European countries a project to make a mobile application called **fit[ted].me**, which is currently in its development phase.

OTHER INFORMATION

I have a driving license, an own car, and availability to travel.

PERSONAL PROFILE

Good team worker, eager to have new work experiences where I can have the opportunity to learn more, grow personally and professionally and thus be able to contribute positively to the achievement of the objectives.

PROFESSIONAL EXPERIENCE

Research and Development
University of Vigo | Feb 2020 - Present
Research of different technologies to demonstrate if they are implementable in a final product. Mainly programming in GoLang.

Internship
Muutech Monitoring Solutions SL | Jun 2019 - Jul 2019
Research and development of an anomaly detector using an Artificial Intelligence and Machine Learning systems. For that I used R and Python.

ACADEMIC BACKGROUND

University of Vigo | Spain
Degree in Telecommunications Technology Engineering | 2016 - 2020
Specialization in Telematics Engineering.

Oulu University of Applied Sciences | Finland
Software Development | 2019 - 2020
Stay during the first semester with an Erasmus+ scholarship. Where I could develop some apps for Android and iOS and also simple websites using the MEAN Stack.
